

POWERING THE FUTURE TODAY

DEUTZ BATTERY ENERGY STORAGE SYSTEM (BESS)

Modularity and expandability

Modular design supports easy system expansion

3kva hot swappable inverters allow high level of system redundancy and provide stable voltage output

Compact and portable design

Small unit with big output - 144 kwh batteries capable in increments of 36 kwh

Easy transportation – can be picked up and moved as required

Environmentally friendly

Reduces noise pollution thanks to our innovative canopy design and quality

Built to last

Solid robust design

Airconditioned enclosure for longer battery life and inverter health

DEUTZ
POWER SOLUTIONS

Elevate your equipment's performance and longevity
by choosing DEUTZ genuine spare parts only.
